KOHLER TRENDS / WINE & CHEESE SOCIAL

Your Gateway to Possibilities

48

YEARS

OF

EXPERIENCE

Gateway Supply Co. in Greenville, SC hosted a wine and cheese event for local builders, architects and designers in January. Our showroom featured the latest products from Kohler Co. as well as other manufacturers. The Kohler sales team was there to discuss these new products along with the new Kohler MOXIE showerhead introduced in December 2012. Contact your local Gateway Supply sales person about Kohler products and more.

REMODELER AFTER HOURS IN LEXINGTON / GATEWAY SUPPLY

Gateway Supply Co. in Lexington, SC hosted the Midlands, HBA Remodelers Council for an after hours event in January. It was well attended by the members of the council. Our showroom and its products were the feature for the meeting. This new showroom was completed in mid 2012. We had our vendor partners participating with our staff. Hors d'oeuvres & cold beverages were served while everyone had the opportunity to socialize. Door prizes were also given out during this event.

GATEWAY SUPPLY AWARDED "BEST IN SHOW" AT THE 2013 SCAHACC TRADE SHOW

Darrell Shull & Kenny Tindall with Gateway Supply Co. Awarded "BEST IN SHOW"

Gateway Supply Co. participated in the SCAHACC 2013 annual convention & tradeshow on February 22-23 in Myrtle Beach, SC. A booth was set up with HEIL and FUJITSU equipment and literature. Gateway Supply was awarded "BEST IN SHOW"! This show is a great opportunity for customers to come and see the HVAC product that Gateway has to offer. A HUGE thank you to Darrell Shull & Kenny Tindall for all your hard work!

GATEWAY SUPPLY IS EXCITED TO ANNOUNCE WE HAVE PARTNERED WITH FUJITSU

Gateway is pleased to announce that we have partnered with Fujitsu for the state of South Carolina to sell the "Halcyon" mini-split product family as well as the "Airstage" VRF (Variable Refrigerant Flow) product line. Fujitsu brings over 48 years of air conditioning manufacturing experience and 38 years of manufacturing ductless products.

Gateway is currently conducting training classes all across the state to introduce Fujitsu to the dealer base. The product offering by Fujitsu brings many options to the dealers with multiple air handling products like large and compact ceiling cassettes, wall units, ducted units, ceiling mounts and even floor models, which should be highly popular because of those hard to design around room-over conditions and bonus rooms. Their multi-zone systems are truly exciting because not only do they offer the traditional 2,3 and 4 port systems, they offer a 4 ton unit that up to 8 indoor units can be run with multiple different types of indoor units and with only one line-set going to the outdoor unit. These units are so popular that we have already sold one of these systems before we even had them in stock. Fujitsu even offers 115V inverter systems when power supply may be an issue. Their "Airstage" product line currently offers a 6 and 8 ton heat pumps with a wide variety of indoor units and controls to meet the needs of the design/build and specified building markets. These units can be pigtailed together to create a 24 ton system. Later this year Fujitsu will have heat recovery units. We are excited to have a complete line of VRF commercial product offering. Welcome Fujitsu to the Gateway team!!
